SUMMARY

Final-year Computer Science student with hands-on experience building full-stack web applications using the MERN stack. Proficient in Data Structures & Algorithms (400+ problems solved), with strong foundations in DBMS, Operating Systems, and Computer Networks. Passionate about building scalable, user-centric products and eager to contribute to a fast-paced product team.

TECHNICAL SKILLS

Languages: C++, C, JavaScript, SQL
Frontend: React.js, HTML5, CSS3, Redux (basics)
Backend: Node.js, Express.js, RESTful API Design, FastAPI
Databases: MongoDB, PostgreSQL, MySQL
Tools: Git, GitHub, Vercel, Render, Postman, VS Code
CS Core: DSA, DBMS, Operating Systems, Computer Networks

PROJECTS

CogniCraft – AI Content & Document Hub | *React, Node.js, PostgreSQL, Gemini API* [Live](#)

- Built a full-stack AI-powered web app enabling users to generate articles, emails, and social media posts using the Gemini API, reducing content creation time significantly.
- Designed and implemented RESTful APIs in Node.js/Express for content generation, file management, and user authentication using JWT.
- Integrated Cloudinary for secure file uploads and PostgreSQL for persistent document storage; deployed on Vercel with CI/CD via GitHub.
- Implemented responsive UI in React with context-based state management for seamless user experience across devices.

Heal With Yoga – Health-Tech Web App | *HTML, CSS, JavaScript* [Live](#)

- Developed a responsive, SEO-friendly health-tech platform helping users learn yoga poses and their therapeutic benefits.
- Built interactive UI features including pose-filtering and animated guides using vanilla JavaScript for fast load performance.
- Achieved lightweight, no-dependency architecture with clean, accessible design — deployable with zero build tooling.

Stance – AI Interview Simulator | *React, Node.js, Gemini API* [Live](#)

- Developed a full-stack AI-powered interview platform featuring voice-based questions, webcam response recording, and a real-time analytics dashboard.
- Integrated Gemini API to generate dynamic interview questions with customizable difficulty levels and an AI tutor providing persistent notes and feedback.
- Followed Agile-style sprints for iterative feature development, testing, and delivery across the full project lifecycle.

EDUCATION

B.Tech – Computer Science Engineering

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

2022 – 2026

Intermediate (Class XII)

S.D.G Inter College, Kannauj · UP Board

2019 – 2020

High School (Class X)

S.D.G Inter College, Kannauj · UP Board

2017 – 2018

ACHIEVEMENTS & ACTIVITIES

- Solved 400+ DSA problems across LeetCode, GeeksforGeeks, and HackerRank — strengthening problem-solving across Arrays, Trees, Graphs, and Dynamic Programming.
- Participated in web technology workshop organized by Softpro India Technology (AKTU, Lucknow).
- Actively participated in inter-college technical workshops, aptitude competitions, and coding events.
